

機器學習於材料資訊的應用

Machine Learning on Material Informatics

陳南佑(NAN-YOW CHEN)

楊安正(AN-CHENG YANG)

Homework

- Ex: try to do clustering for the given data set.
 - Step 1: use modularity to run clustering by the geodesic distance.
 - Step 2: use modularity to run clustering by the Euclidean distance.
 - Step 3: use k-mean to run clustering again according to the result of Step 1.
 - Step 4: use k-mean to run clustering again according to the result of Step 2.
